## POLYURETHANE APPLICATIONS *ROLLERS & WHEELS*

### F&T Plastics Polyurethane Rollers & Wheels

- F&T Plastics offers a vast array of polyurethane compounds tailored for transport roller and wheel applications.
- Our molded rollers and load wheels handle the harshest service environments with great success.
- F&T-Tech polyurethane compounds have excellent bonding characteristics with steel, aluminum, stainless, and plastic composites.
- F&T has the ability to strip old worn material and resurface the wheel with new Plei-Tech urethane. This application offers a great savings advantage to our clients.

### Soft Touch® Transport Rollers

- Our Soft Touch® Transport rollers are recommended for applications where it is important not to mar or damage a surface, while still retaining excellent abrasion resistance.
- F&T-Tech 15 (Vulkollan®) offers this sort of outstanding performance for the most demanding applications.
- F&T-Tech 15 and F&T-Tech 95 provide the industry's highest load capacities.
