

## Heald Wires

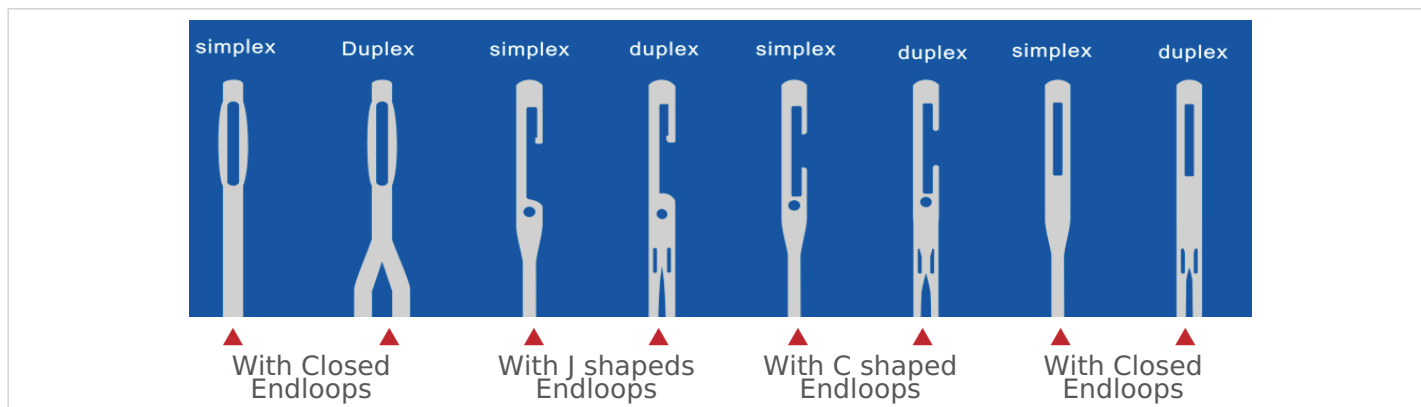

Our healds are supplied in high quality tempered steel or stainless steel. We supply the steel healds in nickel-plated or zinc plated finish. For finer filament yarns we recommend zinc plated finish. Request a quotation or product questionnaire by emailing us at [info@kuenzel-awt.com](mailto:info@kuenzel-awt.com). Different lengths are available - please indicate the inside length which you require.

## Eyelets

## End loops

## Table of Drop Wires specification.

Model	Cross section	Length	Thread eyes	Heddle rod	Shape of loops	Stainless steel	Nickel plated
	mm						
O-Dup-N	2.2×0.3	260	5.5×1.2	9.0×1.5	O	×	×
	2.8×0.3	280					
	3.0×0.3	302					
	3.5×0.4	330					
O-Sim-N	2.2×0.3	260	5.5×1.2	9.0×1.5	O	×	×
	2.5×0.35	280					
	2.8×0.4	302					
	3.0×0.4	331					
	3.5×0.4	382					
O-Dup-W	5.5×0.3	280	5.5×1.2	9.0×1.5	O	×	×
		330					
O-Sim-W	5.5×0.3	331	5.5×1.2	9.0×1.5	O	×	×
	5.5×0.38	382

		382					
C-Sim-W	5.5×0.3	331	5.5×1.2		C	×	×
		382					

The range of healds for special applications is so wide that it is impossible to display all the available specifications here.

Please send us a sample of the healds you are presently using, we will be glad to investigate and evaluate the possibility of quoting for appropriate heald.
